PCB Layer Documentation — Rev 3.2

Fabrication layer plots for the left and right boards (4-layer PCB),
generated from the released production Gerber set.

Prepared: 2026-07-13

Contents

Left board (182.1 x 129.1 mm)

Top Copper — F.Cu	p.4
Inner Layer 1 — In1.Cu	p.5
Inner Layer 2 — In2.Cu	p.6
Bottom Copper — B.Cu	p.7
Top Solder Mask — F.Mask	p.8
Bottom Solder Mask — B.Mask	p.9
Top Paste — F.Paste	p.10
Bottom Paste — B.Paste	p.11
Board Outline — Edge.Cuts	p.12

Right board (182.1 x 129.1 mm)

Top Copper — F.Cu	p.13
Inner Layer 1 — In1.Cu	p.14
Inner Layer 2 — In2.Cu	p.15
Bottom Copper — B.Cu	p.16
Top Solder Mask — F.Mask	p.17
Bottom Solder Mask — B.Mask	p.18
Top Paste — F.Paste	p.19
Bottom Paste — B.Paste	p.20
Board Outline — Edge.Cuts	p.21

PCB construction summary

Layer count: 4 (2 outer + 2 inner copper). Stack order top->bottom: F.Cu, In1.Cu, In2.Cu, B.Cu.

Base material: FR-4. Surface finish: ENIG or lead-free HASL (per PCB fabricator RoHS certificate).

Left board outline: 182.1 x 129.1 mm.

Right board outline: 182.1 x 129.1 mm.

Layers shown: copper (x4), solder mask (top/bottom), solder paste (top/bottom), board outline.

Silkscreen layers are part of the released Gerber set; export from KiCad (kicad-cli) if required.

Confirm exact dielectric thicknesses / copper weights with the PCB fabricator.
